2021 – 2025
Gwalior, Madhya Pradesh

PROJECTS

Password Manager [🔗](#) | [Using React and Tailwind.](#)

(Mar 2025)

- Developed a responsive password manager application that securely stores, manages, and updates user passwords. The app allows users to organize their credentials efficiently, ensuring easy access and strong data protection through a user-friendly interface across all devices.

Todo List App [🔗](#) | [Using React and Tailwind.](#)

(Jan 2025)

- Created a simple and responsive Todo List app that helps users add, edit, and delete daily tasks. The app is easy to use and works on all devices. It helps users stay organized and manage their time more effectively.

Spotify Functional Clone [🔗](#) | [Using HTML, CSS and Java Script.](#)

(Nov 2024)

- This is a functional clone of Spotify featuring a similar user interface and basic music playback functionality. Users can browse through songs and play them seamlessly. While it doesn't include all premium features, it replicates the core experience of Spotify, making it a great project for learning frontend and backend integration.

Student Management System [🔗](#) | [HTML, CSS and Java script for frontend.](#)
[Servlet for backend and Oracle database.](#)

(Aug 2023)

- * Developed a student management system which is used to store students information, track attendance and manage subject-wise marks. The project includes both backend and frontend components.

TECHNICAL SKILLS

Languages: Java, Java Script, SQL

Technologies/Frameworks: HTML, CSS, Node JS, React JS, MongoDB

Developer Tools: VS Code, IntelliJ

CERTIFICATIONS

Salesforce administrator virtual internship

Data Structures and Algorithms using Java

Cambridge English Entry Level Certificate
